FINANCIAL REPORT / 03

Cash flow

Opening cash	348,500.00	163,735.13	79,242.66

Closing cash	**163,735.13**	**79,242.66**	**26,280.90**

Supplier payments differ from cost of sales because stock and supplier terms affect timing. Positive financing cash is funding, not customer revenue or profit.

FINANCIAL REPORT / 06

Break-even & project payback

USD | Operating profitability and investment recovery are separate measures.

Annual measure	Year 1	Year 2	Year 3
Break-even revenue	601,049.64	619,081.15	637,653.52
Margin of safety	-159,839.64	-88,858.87	-53,560.84

Initial project outlay	21,500.00
Cumulative project cash at forecast end	-343,719.10

Operating break-even excludes depreciation, interest and income tax. Project payback uses pre-tax project cash before financing and is not a dividend or an investor payout.

Assumptions & review

The operating assumptions, accounting policies and items requiring review.

11 financial checks passed | 0 need attention | 6 forecast warnings

- Planning model, not audited accounts or tax advice. Revenue is invoiced as earned; monthly subscriptions only. Annual prepayments, refundable deposits, milestone invoices, unbilled contract assets, customer taxes, seller settlements, capitalized interest and tax-loss carryforwards are not modeled.
- Collection and supplier terms use 30-day monthly interpolation. Inventory purchases and non-stock direct costs use supplier terms; operating costs, setup costs, taxes and opening stock are paid immediately. Stock coverage applies only to linked goods costs. Production stock is tracked separately at unit cost.
- Fictional editorial scenario. Prices, workload, wages, costs and financing are illustrative planning inputs, not current quotes, measured local averages or actual company results.
- Source initial three-specialist hourly practice retained for 36 months, with the principal already in delivery payroll and 0.3 operations coverage fixed. Original five shares and hourly fees remain. Three-month ramp and 8% requested-hour growth replace later specialist expansion; 2% fees and 3% salary/fixed-cost growth. External specialists/cloud are 4% purchased services without stock. No product resale, continuous SOC or certification service. Setup paid once, office deposit excluded. Tax 21% and employee allowance 15% are simplified.
- A 15% illustrative employer allowance is added to paid salaries. The flat 21% native tax provision is a simplified planning input, not an entity or personal tax opinion. Customer sales-tax receipts/remittances and owner distributions are outside this scenario.
- All equity is proposed, uncommitted month-0 cash. No debt is modeled. Opening cash is a reserve, not an extra startup expense. Asset/setup/insurance/premises allowances need scoped quotes; refundable premises deposits and site-specific additional works are excluded.
